Eagle When She Flies

CAPO 2nd Fret

```
      G     D
v.1 Shes been there, God knows shes been there
          G                Em
She has seen and done it all
          A                              G                 D
Shes a woman, she knows how to dish it out or take it all

Her hearts as soft as feathers
             G
Still she weathers stormy skies
     D       G       A          D   G
And shes a sparrow when shes broken
               D     A        D
But shes an eagle when she flies

v.2 A kaleidoscope of colors you can toss
Her around and around
You can keep her in your vision
But youll never keep her down
Shes a lover, shes a mother
Shes a friend, and shes a wife
And shes a sparrow when shes broken
But shes an eagle when she flies

(Chorus)
 A     D       G        D                  G
Gentle as the sweet magnolia, strong as steel
               D
Her faith and pride
          D    G      D                       E              A7
Shes an everlasting shoulder, shes the leaning post in life
            D         G        D                        Bm
She hurts deep, and when she weeps, shes just as fragile
      G                            A          D   G
As a child And shes a sparrow when shes broken
           E   D     A7        D
But shes an eagle when she flies
 D         G      A          D   G              E   D
Shes a sparrow when shes broken, but shes an eagle
 A7        D         G                       E   D     A7
When she flies Oh, bless her Lord, shes an eagle when
      D           G          D
She flies
```
