ALMOST - ELVIS PRESLEY
(Words and music by Kaye - Weisman)

We almost shared a dream
We almost made it as a team
How nice it would have been.

We almost touched the stars
And there stood heaven, almost ours
We were just outsiders looking in.

We had the chance to fall
But fate stepped in to end it all
Before it could begin.

And if it's true, you're really going
There's nothing but goodbye to say
The saddest part of all is knowing
We almost went all the way
