One Night A Day
Garth Brooks
Album: In Pieces

There's not a lot of things to do
I wouldn't rather do with you
Guess I'm funny that way

Lately I just sit and stare
I talk to people who aren't there
To get through one night a day
One night a day
One step away

From leavin' you behind
I sit up with the radio
Sing along with the ones I know
To get through one night a day
One night a day
One step away

From leavin' you behind
I'm callin' every friend I've had
Wake 'em up, and make 'em mad
Let 'em know that I'm OK
I used to sit and talk to you
They're all just a substitute
To get through one night a day
One night a day
One step away

From leavin' you behind
I stay up with the late, late show
Just another way I know
To get through one night a day
To get through one night a day
