I'm Always On A Mountain When I Fall

```
C                                      Dm
Most of my life I've almost been a winner
     F                                  C
I've come so close but never really won
     C               C7            F
Just when I thought I'd finally made it
  G                                   C
I find myself back where I started from
```

Chorus:

```
  Em              Dm             F
I hate to say I'm giving up but I believe
G                               C
Losin's just become a way of life for me
Em                              F
Losin' wouldn't be so bad at all
        Dm          G                C
But I'm always on a mountain when I fall
```

```
Then you came along and had me, had me believin'
For once in my life my luck had finally changed
And now you say you're gonna leave me
Seems everything I do winds up the same
```

Chorus

```
Em                              F
Losin' wouldn't be so bad at all
        Dm          G                C
But I'm always on a mountain when I fall
```
