I Can't Be Myself
capo 4

verse 1

```
          G               D                   G
It''s the way of mine to say just what I''m thinkin''

  G                    D                   G
And to do the things I really want to do

         C                                    G
And you want to change the part of me I''m proud of

  G               D                    G
So I can''t be myself when I''m with you
```

verse 2

```
        G                D                    G
Oh you never liked the clothes I weared on Sunday

 G                       D                   G
Just because I don''t believe the way you do

    C                                  G
But I believe the Lord knows I''m unhappy

       G               D                    G
Cause I can''t be myself when I''m with you
```

chorus

```
C                                 G
I can''t be myself and be what pleases you

         C               G              A                        D
And down deep inside I don''t believe you really want me to

          C                                  G
And It''s not my way to take so long deciding

 G                  D                    G
That I can''t be myself when I''m with you

    G              D                    G
No I can''t be myself when I''m with you
```
