

Chain lightning

Baby I ain't into style, baby I ain't into fashion
I just got a passion for chain lightning
There's a rumble in the park, there's a thunder in the dark
A night so quiet stretched chain lightning
Beneath a street light there was fighting in the night
Baby sitting here cause chain lightning
Hustle... chain lightning
Lovers walking through the mist, Romeo steals a kiss
That's when it hits chain lightning
You never hear a sound, there's a fire on the ground
You ??? coming down, spitting on the town
Baby its romance, its the latest dance
Everybody's doing chain lightning
They do it on the Strand in a dark car
They do it in a dark car in a dark land
Everybody's doing chain lightning
They do it in a car down on the strand
Everybody's doing chain lightning
