

Coma girl

by Joe Strummer and the Mescaleros

I was crawling through a festival way out west
i was thinking about love and the acid test
but first i got real dizzy with a real rockin' gang
then i saw the coma girl, and the excitement gang

and the rain came in from the wide blue yonder
through all the stages, i did wander

coma girl, and the excitment gang
mona lisa, on a motorcylce gang
coma girl, coma girl
mona lisa

The coma girl was beating with the oil drum gang
some fast food fanatic was burning down the burger van
somebody was waling their shed off
Nobody was rippin the teen scene dead
and the rain, came in from the wide blue yonder
through all the stages, i did wander

oh coma girl, and the excitement gang
mona lisa, on a motorcycle gang
coma girl, coma girl, through the rain came in
mona lisa, and the excitement gang
i thought you and me could wander...
i thought you and me might wander...
I was crawling through a festival way out west
