KINGDOM OF DAYS

CAPO on 3rd fret (instead og using BM then use D/F# to play it right)

```
     D                                        G
With you I don't hear the minutes ticking by
  A                               D  A
I don't feel the hours as they fly
  D                              G
I don't see the summer as it wanes
       A                                    D   A
Just a subtle change of light upon your face
      G          A          D          G
Walk away, walk away, walk away, walk away
Em          A          G
This is our kingdom of days

  D                                  G
I watch the sun as it rises and sets
  A                                       D  A
I watch the moon trace its arc with no regret
   D                                        G
My jacket 'round your shoulders, the falling leaves
    A                                      D                              A
The wet grass on our backs as the autumn breeze drifts through the trees

      G          A          D          G
Walk away, walk away, walk away, walk away
Em          A          G
This is our kingdom of days
Em          A          G
This is our kingdom of days

bridge:
  G                                                    Bm
I love you, I love you, I love you, I love you, I do
                  G                                  Em                          A
You whisper  then prove it, then prove it, then prove it, to me baby blue

G                A                          BM          G
When I count my blessings and you're mine for always
   G              A
We laugh beneath the covers
              BM                  G
and count the wrinkles and the grays

      G          A          D          G
Sing away, sing away, sing away, sing away
      G          A                    D          G
Sing away, sing away, my darling, we'll sing away
Em          A          G
This is our kingdom of days
Em          A          G
This is our kingdom of days
Em          A          G
This is our kingdom of days
Em          A          G
This is our kingdom of days
Em          A          G
This is our kingdom of days
```
