

Say sons

One, two, three, four

Hey!

Well I got a little girl down by the river

Now she keeps ??? and tight

I got a little girl, she keeps me every every night, every night

She says "I'm feeling like a wild, hands on the wheel"

She keeps me all night

??? in sight

Yes that's right

So come on, down by the river

Come on, come on

Just come on, down by the river

It's alright

Well baby, let me protect you little darling

If you let me be your man

I know if you'll just let me in

Well, every day just brings the same

Every day it brings your same games

But every night ???

Yes, come on, down by the river

Oh come on, girl, it's alright

Well, come on, down by the river

Hold tight

Big man

This song should be one verse!
