Dead Skunk

DEAD SKUNK

```
A                    E
Crossing the highway late last night,
D                           A
Shouldve looked left and he shouldve looked right
A                     E
Didnt see the station wagon car
       D                      A
So the skunk got squashed and there you are

Chorus
                A                  E
Youve got your dead skunk in the middle of the road
     D             A
Dead skunk in the middle of the road
A                  E
Dead skunk in the middle of the road
D                A
Stinkin to high heaven

Well youve got your dead cat and youve got your dead dog.
In the moonlit night youve got your dead toad frog
Youve got your dead rabbit and your dead raccoon,
The blood and the guts are gonna make you swoon.
```
