

Holding On To A Dream

A **Em**
We are born with wings to fly
D **G**
but sometimes we can't reach that high
A **Em** **G**
'Cause it feels like the sky is falling down

A **Em**
Against the odds, against the rain
D **G**
You dig your heels in and slow that train
Em
So many wishes in the lost and found
A **G**
one little thing can turn it all around

Chorus:

G **A**
Holding on to a dream
D
Trying to keep hope alive
G
You can reach out to me
Em
You can reach down deep inside
Em **A**
When the whole world's gone insane
D
A ray of light remains
Em
These days you know it seems
G
Sometimes the hardest things are
A
Holding on to your dreams

A **Em**
At times you win, at times you lose
D **G**
Sometimes life puts rocks in your shoe
A **Em**
But something in you keeps you walking on

Bridge:

Em

Leave the fear and doubt in the past

A G

Just believe, don't look back

Chorus:

G A

Holding on to a dream

D

Trying to keep hope alive

G

You can reach out to me

Em

You can reach down deep inside

Em A

When the whole world's gone insane

D

A ray of light remains

Em

These days you know it seems

G

Sometimes the hardest things are

A

Holding on to your dreams

Bridge:

Em

Feels like endless fight

A G

All up hill, but that's all right

Em A

When the whole world's gone insane

D

A ray of light remains

Em

These days you know it seems

G

Sometimes the hardest things are

A

Holding on to your dreams

Em

These days you know it seems

G

Sometimes the hardest things are

A

Holding on to your dreams
