The Bible's True

The Bible's True

I know what evolution is, I want the world to see
Ain't no man can tell me what for, make a monkey out of me

cho: Oh, the Bible's true, yes, I believe it,
I'm seen enough and I can prove it
What you say, what you say,
Bound to be that way
God made the world and everything that's in it
Made man perfect and the monkey wasn't in it
What you say, what you say
Bound to be that way

Well, evolution teaches man came from a monkey
I don't believe no such thing on the days of the week or Sunday

Well God made the world, then he made man
Woman for to be his mate now beat that if you can.
