Move Yourself Over for Me

Move Yourself Over for Me
(Lucy Simpson)

Lately my voice has been locked up inside
My dreams and my feelings had just about died
It took me a long time to know why I cried
So move yourself over for me

Move yourself over for me, boys
Move yourself over for me
I've got a lifetime of living to do
I'm starting out late but I mean to get through
Now move yourself over for me

I'm a good woman, I know what I'm worth
I've worked hard and well since the day of my birth
I'm carving some space I can like on this earth
Now move yourself over for me

Once as a young girl I played with the boys
I had my own tricycle, had my own toys
Somehow I forgot how to make my own noise
Now move yourself over for me

Once I believed I was not very strong
I never believed I could write my own song
It just goes to show even I can be wrong
Now move yourself over for me
