Come To The Light

Come to the Light
(Worship Festival Live version)
Words and Music by Kevin Prosch

```
     A                    D  A
I'm standing here to testify
A
Oh, the Lord is good
   A                  E              A
to sing of how he changed my life
A
Oh, the Lord is good
A                   D         A
I was bound by hate and pride
A
Oh, the Lord is good
A                   E      A
Never knowing of his light
A
Oh, the Lord is good
  A                 D             A
I did not think I could have peace
A
Oh, the Lord is good
A                      E          A
Trapped inside by fear and shame
A
Oh, the Lord is good
      A              D       A
You wiped away all my grief
A
Oh, the Lord is good
        A            E             A
When I believed upon your name

               D
Come to the light
                A
Come as you are
          E                  A
You can be the friend of God
               D                          A
Humble yourself and give him your heart
         E                        A
He will meet you where you are

               D
Come to the light
             A
```

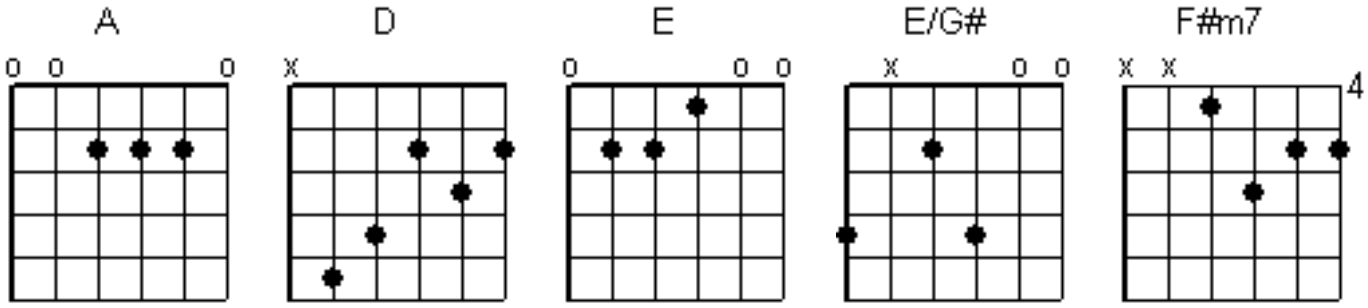

Visit www.traditionalmusic.co.uk for more songs.

just as you are
E A
Fall on the rock for the wasted years
D A
He will restore all that was lost
E A
Surrender now - his power is here

A E/G#
Clap your hands oh God
F#m7 D
Clap your hands oh God

Spoken:
You will call down from the North and the South
He will call their names from the East and the West
For my God is gracious, loving, kindly, and tender
He knows, he knows what is best
He will call for the winds of heaven to begin to move
He will stir up the nations with a holy ?
Send down the power of his mighty rain(reign?)
He will fill us up, bring those back to him, yeah
Hey, oh, yeah
Here we go, here we go
Come to the light, come to the light
