Surrender To Me

Surrender To Me

```
          D          G          A                  D
Do you remember, how you cried when the lights were gone
G          A                   D    Bm
 How you felt when you were all alone
G                              Asus    A
 How you longed for some lovin'?
          D     G          A         D
Are you tired, of living life in a circle
G          A              D   Bm
 Of living life with no purpose
G                          Asus       A
 Of living life with no tomorrow? Then...

    D          G                A                  D
Surrender to Me with your heart and your soul
    G          A         G                D
Surrender to Me and I'll make you whole
G              A         Bm          G
My love for you will outlast the stars, so
    D          G         Asus A                  D
Surrender to Me like I...  surrendered for you
```

Are you frightened, by a world that won't accept you
By your mistakes that won;t forget you
At the chance to be someone?
Can you believe, in a Love that made the whole universe
A Love that came and walked the earth
A Love that died but now is risen for you? Then...
