CHILDREN OF THE WORLD

```
        F         133211
        Fmaj7     x33210
        Bb        113331
        Fsus      x11311
        Gm        355333
        G         355433
        C         032010
        Dm        xx0231
```

First verse:

```
       F           Fmaj7
Every life, every beating heart
        Bb
Has a searching soul inside
       Fsus
Ever needing, ever seeking out
      Gm
The meaning to life

    F         Fmaj7                  Bb
I refuse to believe that we're only here to live and die
        Fsus               Gm
In the futile days of a faithless haze
 Dm           G             C
Never asking why, why would I
           Dm       G         C
When I've felt the hand of eternity
         Dm   G       Bb
It's a legacy I will leave, I want to leave

                          F
For the children of the world
                     Bb
Every single little boy and girl
                          C
Heaven plants a special seed
                    Dm        Bb
And we must have faith for these

Second verse:
         F           Fmaj7
I will stand for the truth I've seen
         Bb
So the truth is seen in me
        Fsus           Gm
I will give from the source of love
   Dm            G               C
So all that I believe is handed down
```

```
         Dm          G            C
For the road that's yet to be travelled on
        Dm       G         Bb
By the ones who will carry on, I'll carry on

Chorus:
                           F
For the children of the world
                      Bb
Every single little boy and girl
                           C
Heaven plants a special seed
                     F
And we must have faith for these
                              F
Red and yellow, black and white
                              Bb
They are precious in the Father's eyes
                           C
Like the Father may we see
                     Dm      Bb
That they have a destiny, yeah
                     Gm       Bb      C
And give them the light of love to lead
 Dm      G              C
Through the darkness around us now
 Dm    G          Bb
To a place where hope is found

Repeat Chorus:
```
