Your Presence Is My Favorite Gift

Capo IV

```
G                            Em            G
There's a swing on the back porch where I sit in the morning
         C                             G
when the sun is slowly rising with a Bible on my knee
                            Em
and at the last swallow of coffee
          G                                  C
I'll just sit there in your presence for awhile
                             G
and let your spirit come and move all over me

Chorus      C                                  G
      Thank you Lord for everything you've given me.
                      C                          G
      You've provided every need both big and small
                   Em                                C
      and more than all of the blessing that you pour out everyday,
           Am                      D        G
      Your presence is my favorite gift of all

Sometimes late at night when the kids are asleep,
I'll go out into the yard and just listen to the night
and I can fee your holy spirit as a whipporwill leads nature in a praise
song
and every critter in the forest seems to cryout.

Chorus
           Em                              C
More than all of the blessings that you pour out everyday,
      Am                      D        G
your presence is my favorite gift of all

          G            Em                       G
there's a swing on the back porch where I sit in the morning
