

I have changed with changing seasons
I am bent with toil and care
When I stand among the angels
Will my mother know me there

Chorus

Yes I know that she will know me
In those mansions bright and fair
Mother's love can ne'er forget me
And I'm sure she'll know me there

All for me my mother wrestled
When she used to kneel in prayer
Do you think she have forgotten
Will my mother know me there

Mother's face has been a beacon
O'er the sea of deep despair
I shall look for her up yonder
Will my mother know me there
